SUBJECT INDEX FOR VOLUME 32, 1971

A

Aberrations, chromosal
  In cultured porcine fibroblasts after x-irradiation of male progenitors, 1
Abstracts
  Southern, 368
Acetohydroxamic acid
  In vitro inhibition of rumen urease with, 794
Acid, ascorbic
  Requirement of mature horses, 249
Acid mucopolysaccharides
  Age and muscle-related differences of, in bovine muscle tissue, 620
Adipose tissue
  Effect of dietary unsaturated fatty acids and stages of lactation on milk composition and, in swine, 79
Age
  And muscle-related differences of acid mucopolysaccharides in bovine muscle tissue, 620
Aldosterone
  Variations in acid labile conjugate of, in the urine of ewes, 682
Alfalfa
  Feed value for sheep of cornstalks, rice straw and barley straw as compared with, 343
Alfalfa (*Medicago Sativa*)
  Nitrogen studies with lambs fed, as hay, low-moisture and high moisture silages, 1256
Amino acid concentrations
  Influence of source and level of dietary protein on plasma free, in growing swine, 268
Amino acid, sulfur
  Requirement of the pregnant gilt, 900
Amino acids, free
  Influence of site of sampling and stage of fast on concentrations of all, in the plasma and liver in the young pig, 1143
Amino acids, serum free
  In piglets during the early postnatal period, 879
Animal quarters
  Criteria needed to design, for comfort and productivity, 584
Animal Science
  Improving the effectiveness of teaching, 161
Animal waste
  Economies of recovery and distribution of, 816
Animal waste handling and disposal
  In confinement production of swine, 811
Animal waste value
  Nutrient recovery and utilization, 799
Ascaris suum infection
  Effect of pyrantel salts on, in growing pigs, 874
Aspen, digestion of
  Alkali-treated aspen, and aspen bark by goats, 756
Atherosclerosis
  In ruminants, 1037
Atmosphere
  Influence of, and incubation temperature on the metabolism of washed boar spermatozoa, 103

B

Backfat in swine
  Prenatal and postnatal influences on growth and, 10
Backfat thickness
  Transferrin and pre-albumin polymorphisms in swine selected for, 174
Barley straw
  Feed value for sheep of cornstalks, rice straw and, as compared with alfalfa, 343
Beef, dairy
  Symposium, 424
  The potential for, 431
Beef enterprises, dairy
  Management for disease prevention in, 438
Beef production, dairy
  Genetic aspects of, 433
Beef production systems,
  Problems related to intensive indoor and outdoor, 554
Benzimidazoles
  Effects of, as inhibitors of the metabolism of washed porcine spermatozoa, 287
Biological implications
  Of intensive swine rearing systems, 560
Biological variation
  In body composition, 647
Biopsy technique, application of a
  To the study of lipid absorption and transport by bovine intestine, 774
Birth, type of
  Influence of sex and, on performance of early weaned lambs, 974
Birth weights
  Production in some pure breeds of sheep and their crosses: II., and weaning weights in lambs, 1090
^{14}C-Biuret, hydrolysis of
  By *in vitro* rumen fermentation and crude biuretase preparations, 704
^{15}N-Biuret, hydrolysis of
  By *in vitro* rumen fermentation and ruminal biuretase, 711
Biuretase preparations, crude
  Hydrolysis of ^{14}C-Biuret by *in vitro* rumen fermentation and, 704
Biuretase, ruminal
  Hydrolysis of ^{15}N-Biuret by *in vitro* rumen fermentation and, 711
Blood, cross-circulating technique
  A, of unanesthetized sheep, 1174
Boar
  Effect of diethylstilbestrol implantation on testicular development in the, 525
Body composition
  Biological variation in, 647
Body solids loss
  Total, as a measure of a short-term heat stress in cattle, 306
Bovine, ovariectomized
  Excretion of 4-^{14}C corticosteroids in urine by an, 119
Breed, effect of
  And mating season on reproductive performance of sheep, 1176
Breeds and crosses
  Comparisons of certain carcass traits of several, of cattle, 446
Browse, digestibility of
  Comparison of methods of estimating the, and range forage, 1046

Bulls, yearling beef
Evaluation of ^{40}K count as a predictor of muscle in, 463

C

Calcium
Hair as an indicator of the, and phosphorus status of ponies, 74
Calcium and magnesium absorption
In growing cattle as influenced by age of animal and source of dietary nitrogen, 789
Calcitonin
Response of plasma Ca to thyroidectomy and, in growing pigs, 888
Calves, beef
Feed consumption, dairy gain and feed required per unit of gain in, 420
Calves, dairy
Raising, for beef purposes, 442
Calving interval
Gestation and postpartum periods of indigenous Central African cattle under a restricted system of breeding, 507
Calving percent
Effect of percentage of Zebu breeding, inbreeding and weight at different periods on, of Brangus and Africander-Angus heifers, 500
Carbohydrate levels, plasma
In the neonatal pig, 895
Carcass characteristics, pork
Effect of cooked soybeans on performance, fatty acid composition and, 891
Carcass composition
Changes in the, of Holstein steers associated with ration energy levels and growth, 611
Carcass quality
Some, and endocrine criteria of Holstein heifers fed melengestrol acetate, 628
Carcass quality characteristics
In heifers of reciprocal crosses of the Angus, Charolais and Hereford breeds, 406
Carcass traits
Comparisons of certain, of several breeds and crosses of cattle, 446
Of purebred Durocs and Yorkshires and their crosses, 413
Relationship between productive traits and, in lambs, 1057
Carcass traits of beef heifers
Effects of oral melengestrol acetate and a testosterone-diethylstilbestrol implant, breed and age on growth and, 957
Carcass traits of lambs
Effects of sex, age of lamb and length of feeding upon energy metabolism and, 721
Carcass yield
Effect of preslaughter fasting on bovine, and quality, 870
Castration, effect of
On meat quality and quantity, 849
Cattle, beef
All-forage diets for finishing beef cattle, 327
Cattle behavior
On subalpine range in Southcentral Alaska, 339
Cattle, Central African
Effects of nutrition, season and age on the estrous cycle of indigenous, 943
Cattle, indigenous Central African
Calving interval, gestation and postpartum periods of, under a restricted system of breeding, 507
Cellulose
Rumen development in lambs: 1. Microbial digestion of starch and, 740
Chamise (*Adenostoma fasiculatum*)
Evaluation of, and interior live oak (*Quercus wislizenii*) as feed for sheep, 1042
Characteristics, physiological
Effect of environmental temperature on, of pigs with fast and slow glycolyzing muscle, 1103
Chemical additives
In rumen fermentations: *In vitro* effects of drugs, inoculum source and substrate on rumen volatile fatty acids and protozoa, 994
Chemical properties
Effect of fasting and prefeeding on some, of porcine muscle, 457
Chlortetracycline
Value of, and sulfamenthazine for conditioning feeder cattle after transit, 137
Classification, a two-way
Standard errors of heritability estimates calculated from variance component analysis of, 1069
Cobalt
Utilization of dietary vitamin B_{12} and, by mature horses, 252
Colostrum, sow
Effect of dietary protein level on composition changes in, and milk, 1128
Compositional changes
Growth effects on, in the carcass and tissues of growing-finishing swine, 1113
Conception rate
Influence of postbreeding thermal stress on, in beef cattle, 1216
Cornstalks
Feed value for sheep of, rice straw and barley straw as compared with alfalfa, 343
Corn studies
Opaque-2 and floury-2, with growing swine, 256
Corpora lutea
Maintenance of unilateral pregnancy in the pig with induced, 282
Response of ovaries to removal of, in sheep, 1202
Corpus luteum regression
Influence of gonadotropic hormones on estradiol-induced, in the ewe, 977
Correction factors
Evaluation of two types of age of dam, for weaning weight in beef cattle, 1078
4-^{14}C Corticosteroids
Excretion of, in urine by an ovariectomized bovine, 119
17-hydroxy-corticosteroids
Growth comparison of a muscular and fat strain of swine: I. Relationship between muscle quality and quantity, plasma lactate and, 1119
Covariance, partitioning of
Relationships between direct and maternal effects on growth in Herefords: II., between relatives, 26
Cow culling, effect of
On repeatability estimates, 167
Cows, fertile and nonfertile
Reproductive steroids in the bovine. IV. Urinary estrogen excretion rates from 0 to 9 days after breeding in, 1183
Cows, lactating dairy
Response of, to high levels of dietary molybdenum, 364
$^{51}CrCl_3$ ratio
Comparison of the, and total collection techniques in digestibility studies with a wild ruminant, the white-tailed deer, 999

Creep feeding
Effects of sex alteration, breed, type of rearing, and, on lamb growth, 859
Crimp, methods of measuring
Comparison of, in grease wool staples, 43
Crossbreeding, effect of
Production in some pure breeds of sheep and their crosses. IV., on wool production, 1099
Crossing, rotational
Grading and two- and three-breed, as systems for production of slaughter steers, 1062

D

Deer, white-tailed
Comparison of the ^{51}Cr-Cl_3 ratio and total collection techniques in digestibility studies with a wild ruminant, the, 999
Dehydrated alfalfa meal
Effect of, and of fish solubles on growth and nitrogen and energy balance of lambs and beef cattle fed a high urea liquid supplement, 764
Diet
And supplemental mineral effects on manganese metabolism in newborn calves, 141
Diet, effects of
Upon levels of plasma growth hormone in sheep, 111
Diethylstilbestrol
Stability of, and its effect on performance in lambs, 146
Diethylstilbestrol implantation
Influence of the time following, on the palatability, composition and quality of boar pork, 51
Diethylstilbestrol implantation, effect of
On testicular development in the boar, 525
Diethylstilbestrol in lambs
Intermittent *versus* continuous: Effects on plasma urea nitrogen and nitrogen retention, 107
Diets, all-forage
For finishing beef cattle, 327
Diets of steers
Methods of estimating dry-weight composition in, 1003
Digestion
Apparent, in various segments of the digestive tract of ponies fed diets with varying roughage-grain ratios, 245
Doppler, intrarectal
Pregnancy diagnosis in the ewe by, 922
Dry-weight composition
Methods of estimating, in diets of steers, 1003

E

Effects, genetic and maternal
On preweaning growth and type score in beef calves, 825
Electrophoresis, starch gel
Differentiation of semen from *bos bubalus* and *bos taurus indicus* by, 1212
Embryos, homogenized
Effect of, on IUD-induced luteal regression in the ewe, 496
Endocrine criteria
Some carcass quality and, of Holstein heifers fed melengestrol acetate, 628
Energetic efficiency
Of beef and dairy steers, 451
Energy
Associative effects on the digestibility of, and the utilization of nitrogen in sheep fed simplified rations, 152
Energy balance
During heat stress in sheep, 784
Energy intake, influence of
Cow body size and calf sex on certain behavioral traits of Angus-Holstein cows and their progeny, 727
Energy metabolism
Effects of sex, age of lamb and length of feeding upon, and carcass traits of lambs, 721
Energy requirements
Of light horses for various activities, 100
ε-N-Methyl lysine metabolism
In sheep, 1245
Environment
Effects of varying the, upon the performance of dairy cattle, 566
Environment, cold
Thermoregulatory responses to, by neonatal wild and domestic piglets, 926
Enzymes, lysosomal
Histochemical activity of some, in normal and in pale, soft and exudative pig muscle, 233
Equine
Relationship of nitrogen source to certain blood components and nitrogen balance in the, 487
Errata, 823
Estimates, repeatability
Effect of cow culling on, 167
Estrogen
Metabolites of progesterone and, in domestic sow urine. I. Effect of pregnancy, 515
Metabolites of progesterone and, in domestic sow urine. III. Effect of litter size, 936
Estrous cycle
Effects of nutrition, season and age on the, of indigenous Central African cattle, 943
Reproductive steroids in the bovine. III. Changes during the, 946
Estrus
Effects of hormone combinations on, ovulation and fertility in the ewes, 1206
Estrus, synchronization of
Induction of multiovulation in the ewe following, 491
Ethology
And its place in animal science, 1278

F

Factors, environmental
Relationships between direct and maternal effects on growth in Herefords: I., during preweaning growth, 17
Farm animals
Learning in, 1268
Social behavior in, 1274
Farrowing interval, sow
Factors affecting, 510
Fast, stage of
Influence of site of sampling and, on concentrations of all free amino acids in the plasma and liver in the young pig, 1143
Fasting, effect of
And prefeeding on some chemical properties of porcine muscle, 457
Fasting, preslaughter
Effect of, on bovine carcass yield and quality, 870
Fat
Growth of muscle and, in beef steers from 6 to 36 months of age, 225

Fat deposition, bovine intramuscular
Effects of some pharmacological agents on, 863
Fat deposition, intramuscular
Effects of probing and alcohol injection of muscle on subsequent, 62
Fatty acids, dietary unsaturated
Effect of, and stage of lactation on milk composition and adipose tissue in swine, 79
Fatty acids, rumen volatile
Chemical additives in rumen fermentations: *In vitro* effects of drugs, inoculum source and substrate on, and protozoa, 994
Feed consumption
Daily gain and feed required per unit of gain in beef calves, 420
Feeds and water, self-selection of
By swine during pregnancy and lactation, 658
Feeding, group
Vs. individual feeding of lambs, 549
Feeding, individual
Group feeding *vs.*, of lambs, 549
Fertility in ewes
Effects of hormone combinations on estrus, ovulation and, 1206
Fibroblasts, cultured porcine
Chromosomal aberrations in, after x-irradiation of male progenitors, 1
Finishing rations, digestibility of
Containing various sources and levels of roughage by steers, 544
Fish solubles
Effect of dehydrated alfalfa meal and of, on growth and nitrogen and energy balance of lambs and beef cattle fed a high urea liquid supplement, 764
Forages, digestibility of
Comparison of four *in vitro* methods for predicting *in vivo*, 1030
Forage, range
Comparison of methods of estimating the digestibility of, and browse, 1046
Freemartins
Reproductive steroids in the bovine. II. Comparison of, to fertile heifers, 318
Freezing methods, effects of
Length of frozen storage and cookery from the thawed or frozen state on palatability characteristics of pork, 636
Fusarium roseum
Mold toxicity in swine and laboratory animals: Effects of feeding corn inoculated with pure cultures of, Ohio isolated *C*, 1169

G

Genetic analysis
Of a swine control population. II. Estimates of population parameters, 185
Gestation
Calving interval, and postpartum periods of indigenous Central African cattle under a restricted system of breeding, 507
Gilt, gravid
Manganese utilization and placental transfer in the, 84
Gilt, pregnant
Sulfur amino acid requirement of the, 900
Gilts, pregnant and hysterectomized
Serum metabolites of, fed two levels of energy, 1153
Glucose-6-phosphate dehydrogenase
And hemoglobin types in cattle, 132
Goats
Reproductive performance in, treated with progestogen impregnated sponges and gonadotrophins, 301
Gonadotrophin (HCG) chorionic
Multiple births in beef cows treated with equine gonadotropin (PMS) and, 962
Gonadotropin (PMS), equine
Multiple births in beef cows treated with, and chorionic gonadotropin (HCG), 962
Gonadotropin, levels of
Pituitary and blood plasma, after ovariectomy of heifers, 678
Gonadotrophin secretion, inhibition of
Hypothalamic sites of action for methallibure (ICI 33828), 912
Gonadotrophins
Reproductive performance in goats treated with progestogen impregnated sponges and, 301
Gossypol
Effect of initial weight and days on feed on the accumulation of, in pig livers, 96
Grading
And two- and three-breed rotational crossing as systems for production of slaughter steers, 1062
Grazing, continuous and rotational
Further studies on, or irrigated pasture by yearling beef steers and heifers, 984
Growth comparison
Of a muscular and fat strain of swine: I. Relationship between muscle quality and quantity, plasma lactate and 17-hydroxy-corticosteroids, 1119
Growth, direct and maternal effects on
Relationships between, in Herefords: I. Environmental factors during preweaning growth, 17
Relationships between, in Herefords: II. Partitioning of covariance between relatives, 26
Relationships between, in Herefords. III. Covariance of paternal half-brother and sister performance, 35
Growth effects
On compositional changes in the carcass and tissues of growing-finishing swine, 1113
Growth in swine
Prenatal and postnatal influences on, and backfat, 10
Growth, lamb
Effects of sex alteration, breed, type of rearing and creep feeding on, 859
Growth, preweaning
Genetic and maternal effects on, and type score in beef calves, 825

H

Haemonchus contortus
^{59}Fe retention in sheep as a function of age and of artificially induced parasitism with, 1195
Hair
As an indicator of the calcium and phosphorus status of ponies, 74
Hams, dry-cured
Effect of antemortem injection of papain on the tenderness and quality of, 1107
Ham, freeze-dried precooked commercially cured
Effects of shelf temperatures, storage periods and rehydration solutions on the acceptability and chemical composition of, 624

Heat increment
Formulating beef rations with varying levels of, 692
Heat stress
Energy balance during, in sheep, 784
Heifers
Relationships among weight gains, age at puberty and reproductive performance in, 127
Heifers, Brangus and Africander-Angus
Effect of percentage Zebu breeding, inbreeding and weight at different periods on calving percent of, 500
Heifers, fertile
Reproductive steroids in the bovine. II. Comparison of freemartins to, 318
Heifers, reciprocal crosses of
Carcass quality characteristics in, of the Angus, Charolais and Hereford breeds, 406
Heifers, reciprocally crossed
Growth traits of, Angus, Hereford and Charolais, 399
Hemoglobin types in cattle
Glucose-6-phosphate dehydrogenase and, 132
Heritability estimates
Standard errors of, calculated from variance component analysis of a two-way classification, 1069
Histochemical activity
Of some lysosomal enzymes in normal and in pale, soft and exudative pig muscle, 233
Hormone combinations, effects of
On estrus, ovulation and fertility in ewes, 1206
Hormone, growth
Secretion rates in cattle, 115
Hormone levels
Influence of live weight, age and sex on circulating growth, in swine, 1229
Hormone, plasma growth
Effect of diet upon levels of, in sheep, 111
Hormones, gonadotropic
Influence of, on estradiol-induced corpus luteum regression in the ewe, 977
Horse
Protein and nonprotein nitrogen utilization in the, 68
Horses
Ascorbic acid requirement of mature, 249
Utilization of dietary vitamin B_{12} and cobalt by mature, 252
Horses, light
Energy requirements of, for various activities, 100
Housing environment, effects of
Dietary protein level and sex on performance of growing-finishing swine during winter seasons, 1138

I

Influences, prenatal and postnatal
On growth and backfat in swine, 10
Intersexuality
Some cytogenetic aspects of, in the bovine, 1219
Intrapopulation selection
Versus reciprocal recurrent selection in swine, 840
Iron-binding capacity
Normal values and physiological variations of plasma iron and total, in pigs, 667
^{59}Fe retention
In sheep as a function of age and of artificially induced parasitism with *Haemonchus contortus*, 1195

K

^{40}K count, evaluation of
As a predictor of muscle in yearling beef culls, 463

L

Lactation periods, first and second
Effect of protein levels and *opaque-2* corn on sow and litter performance during the, 470
Effect of protein levels and *opaque-2* corn on nitrogen metabolism in the sow and litter during the, 476
Lactation, stage of
Effect of dietary unsaturated fatty acids and, on milk composition and adipose tissue in swine, 79
Lambs
An evaluation of various protein concentrates for growing finishing, 334
Lambs, carcass traits in
Relationship between productive traits and, 1057
Lambs, early weaned
Influence of sex and type of birth on performance of, 974
Lamb, newborn
Respiration rate and rectal temperature in the, 296
Learning
In farm animals, 1268
Lipid absorption and transport
Application of a biopsy technique to the study of, by bovine small intestine, 774
Lipids, bovine serum
I. The Influence of added animal fat to the ration, 1008
II. Lipoprotein quantitative and qualitative composition as influenced by added animal fat diets, 1016
Lofgreen-Garrett net energy system
Programming models for use of the, in formulating rations for beef cattle, 685
Luteal regression, IUD-induced
Effect of homogenized embryos on, in the ewe, 496
Luteinizing hormone-releasing hormone
Pituitary responsiveness to purified, (LH-RH) at various states of the estrous cycle in sheep, 123

M

Manganese metabolism
Diet and supplemental mineral effects on, in newborn calves, 141
Manganese utilization
And placental transfer in the gravid gilt, 84
Mating season
Effect of breed and, on reproductive performance of sheep, 1176
Meat quality and quantity
Effect of castration in, 849
Medroxyprogesterone acetate
Inhibition of ovulation by intracranial implants of, 919
Melengestrol acetate
Some carcass quality and endocrine criteria of Holstein heifers fed, 628
Melengestrol acetate, oral
Effects of, and a testosterone-diethylstilbestrol implant, breed and age on growth and carcass traits of beef heifers, 957

Metabolism
Effects of benzimidazoles as inhibitors of the, of washed porcine spermatozoa, 287
Influence of atmosphere and incubation temperature on the, of washed boar spermatozoa, 103
Of radioactive sulfur from elemental sulfur, sodium sulfate and methionine by lambs, 778
Methallibure (ICI 33828)
Hypothalamic sites of action for, inhibition of gonadotropin secretion, 912
Methionine
Metabolism of radioactive sulfur from elemental sulfur, sodium sulfate and, by lambs, 778
Microorganisms, rumen
Influence of sulfur on *in vitro* starch digestion by, 357
Milk
Effect of dietary protein level on composition changes in sow colostrum and, 1128
Mineral, supplemental
Diet and, effects on manganese metabolism in new born calves, 141
Molasses
Abomasal nitrogen in steers fed soybean meal, urea or urea plus two levels of, 531
Mold toxicity
In swine and laboratory animals: Effect of feeding corn inoculated with pure cultures of *fusarium roseum* Ohio isolate *C*, 1169
Molybdenum, dietary
Response of lactating dairy cows to high levels of, 364
Monozygotic bovine twin
Efficiency values, 1262
Multiovulation, induction of
In the ewe following synchronization of estrus, 491
Multiple births
In beef cows treated with equine gonadotropin (PMS) and Chorionic Gonadotropin (HCG) 962
Muscle
Effect of probing and alcohol injection of, on subsequent intra-muscular fat deposition, 62
Evaluation of ^{40}K count as a predictor of, in yearling beef bulls, 463
Muscle fiber, porcine
Relation of, type and size to postmortem shortening, 57
Muscle, glycolyzing
Effect of environmental temperature on physiological characteristics of pigs with fast and slow, 1103
Muscle, growth of
And fat in beef steers from 6 to 36 months of age, 225
Muscle, pig
Histochemical activity of some lysosomal enzymes in normal and in pale, soft and exudative, 233
Muscle, porcine
Effect of fasting and prefeeding on some chemical properties of, 457
Muscle quality and quantity
Growth comparison of a muscular and fat strain of swine: I. Relationship between, plasma lactate and 17-hydroxy-corticosteroids, 1119

N

Nickel content of tissues
Effect of dietary nickel level on excretion and, in male calves, 769
Nickel level, dietary
Effect of, on excretion and nickel content of tissues in male calves, 769
Nitrogen
Associative effects on the digestibility of energy and the utilization of, in sheep fed simplified rations, 152
Nitrogen, abomasal
In steers fed soybean meal, urea or urea plus two levels of molasses, 531
Nitrogen and energy balance
Effect of dehydrated alfalfa meal and of fish solubles on growth and, of lambs and beef fed a high urea liquid supplement, 764
Nitrogen balance
Relationship of nitrogen source to certain blood components and, in the equine, 487
Nitrogen, dietary
Calcium and magnesium absorption in growing cattle as influenced by age of animal and source of, 789
Nitrogen metabolism
Effect of protein levels and *opaque-2* corn on, in the sow and litter during the first and second lactation periods, 476
Nitrogen metabolism studies
Nutrient digestibility and, at different stages of growth with fat and lean type swine fed two levels of protein, 654
Nitrogen, plasma urea
Intermittent *versus* continuous diethystilbestrol in lambs: Effects on, and nitrogen retention, 107
Nitrogen retention
Intermittent *versus* continuous diethylstilbestrol in lambs: Effects on plasma urea nitrogen and, 107
Nitrogen source, relationship of
To certain blood components and nitrogen balance in the equine, 487
Nitrogen studies
With lambs fed alfalfa (*Medicago Sativa*) as hay, low-moisture and high-moisture silates, 1256
Nutrient digestibility
And nitrogen metabolism studies at different states of growth with fat and lean type swine fed two levels of protein, 654
Nutrient recovery and utilization
Animal waste value, 799

O

Oak, interior live (*Quercus wislizenii*)
Evaluation of chamise (*Adenostoma fasiculatum*) and, as feed for sheep, 1042
Oat hulls
Extraction of an ulcer-preventing principle from, 1160
Opaque-2 corn
Effect of protein levels and, on nitrogen metabolism in the sow and litter during the first and second lactation periods, 476
Effect of protein levels and, on sow and litter performance during the first and second lactation periods, 470
Effect of protein levels and, on sow milk composition, 482
Ovariectomy of heifers
Pituitary and blood plasma levels of gonadotropin after, 678
Ovaries, response of
To removal of corpora lutea in sheep, 1202

Ovulation
Effects of hormone combinations on estrus, and fertility in ewes, 1206
Ovulation, inhibition of
By intracranial implants of medroxyprogesterone acetate, 919

P

Papain
Effect of antemortem injections of, on the tenderness and quality of dry-cured hams, 1107
Palatability characteristics of pork
Effects of freezing method, length of frozen storage and cookery from the thawed or frozen state on, 636
Palatability traits, comparison of
Of beef produced by young bulls and steers, 641
Parasitism, artificially induced
^{59}Fe retention in sheep as a function of age and of, with *Haemonchus contortus,* 1195
Pasture, irrigated
Further studies on continuous and rotational grazing of, by yearling beef steers and heifers, 984
Pasture supplementation
Effect of level of, on pasture drylot and total performance of beef cattle. I. Spring pasture, 744
Performance
Relationships between direct and maternal effects on growth in Herefords. III. Covariance of paternal half-brother and sister, 35
Performance, dairy cattle
Effect of varying the environment upon the, 566
Performance of beef cattle
Effect of level of pasture supplementation on pasture, drylot and total, I. Spring pasture, 744
Performance, purebred *versus* crossbred
As a basis of selection in swine, 605
Performance, reproductive
In goats treated with progestogen impregnated sponges and gonadotrophins, 301
Relationships among weight gains, age at puberty and, in heifers, 127
Performance, sow and litter
Effect of protein levels and *opaque-2* corn on, during the first and second lactation periods, 470
Pharmacological agents
Effects of some, on bovine intramuscular fat deposition, 863
Phosphorus
Hair as an indicator of the calcium and, status of ponies, 74
Physiology, environmental
In the sub-tropics. I. Effect of continuous environmental stress on some hematological values of beef cattle, 968
Pig livers
Effect of initial weight and days on feed on the accumulation of gossypol in, 96
Pig, the neonatal
Plasma carbohydrate levels in, 895
Piglets
Thermoregulatory responses to cold environment by neonatal wild and domestic, 926
Pituitary responsiveness
To purified luteinizing hormone-releasing hormone (LH-RH) at various stages of the estrous cycle in sheep, 123
Plasma
And urinary components in vitamin A-deficient ewes, 157
Plasma Ca
Response of, to thyroidectomy and calcitonin in growing pigs, 888
Plasma hormones
Influences of age, breed and sex on, in cattle, 292
Plasma iron
Normal values and physiological variations of, and total iron-binding capacity in pigs, 667
Plasma lactate
Growth comparison of a muscular and fat strain of swine: I. Relationship between muscle quality and quantity, and 17-hydroxy-corticosteroids, 1119
Polyethylene
As roughage substitute in rations for dairy cattle, 1239
Polymorphisms, transferrin and pre-albumin
In swine selected for backfat thickness, 174
Ponies
Hair as an indicator of the calcium and phosphorus status of, 74
Ponies, digestive tract of
Apparent digestion in various segments of the, fed diets with varying roughage-grain ratios, 245
Population parameters
Genetic analysis of a swine control population. II. Estimates of, 185
Population stability
Genetic analysis of a swine control population. I., 179
Pork acceptability
As influenced by breed, sex, carcass measurements and cutability, 239
Pork, boar
Influence of the time following diethylstilbestrol implantation on the palatability, composition and quality of, 51
Postmortem shortening
Relation of porcine muscle fiber type and size to, 57
Postpartum anestrus in ewes
Effect of suckling on, lambing in different seasons of the year, 673
Postpartum periods
Calving interval, gestation and, of indigenous Central African cattle under a restricted system of breeding, 507
Postweaning traits
Effectiveness of reciprocal selection for performance of crosses between Montana No. 1 and Yorkshirt swine. II., 211
Potassium, oral
Effect of, and sodium chloride on plasma composition of cattle: A grass tetany related study, 354
Poultry
Adaptation of, to confinement rearing systems, 590
Pregnancy diagnosis
In the ewe by intrarectal doppler, 922
Pregnancy, effect of
Metabolites of progesterone and estrogen in domestic sow urine. I., 515
Pregnancy of gilts
Influence of heat stress during early, mid and late, 312
Pregnancy, unilateral
Maintenance of, in the pig with induced corpora lutea, 282

Preweaning traits
Effectiveness of reciprocal selection for performance of crosses between Montana No. 1 and Yorkshire swine. I., 191
Processing, methods of
Effect of, upon digestibility of a new wheat by sheep and cattle, 716
Production
In some pure breeds of sheep and their crosses: I. Reproductive efficiency in ewes, 1084
Production, confinement
Animal waste handling and disposal in, of swine, 811
Production indexes in ewes
Production in some pure breeds of sheep and their crosses: III., 1095
6-Methyl-17-acetoxy-progesterone
Metabolites of progesterone and estrogen in domestic sow urine. II. Changes pre- and postpartum and effect of feeding, 930
Progesterone, metabolites of
And estrogen in domestic sow urine. I. Effect of pregnancy, 515
And estrogen in domestic sow urine. III. Effect of little size, 936
Programming models
For use of the Lofgreen-Garrett net energy system in formulating rations for beef cattle, 685
Protein
And nonprotein nitrogen utilization in the horse, 68
Influence of quantity and quality of, fed the gravid female on reproductive performance and development of offspring in swine, 88
Nutrient digestibility and nitrogen metabolism studies at different stages of growth with fat and lean type swine fed two levels of, 654
Protein concentrates
An evaluation of various, for growing finishing lambs, 334
Protein, dietary
Influence of source and level of, on plasma free amino acid concentrations in growing swine, 268
Protein level, dietary
Effect of, on composition changes in sow colostrum and milk, 1128
Effects of housing environment, and sex on performance of growing-finishing swine during winter seasons, 1138
Protein levels, effect of
And *opaque-2* corn on sow and litter performance during the first and second lactation periods, 470
And *opaque-2* corn on nitrogen metabolism in the sow and litter during the first and second lactation periods, 476
And *opaque-2* corn on sow milk composition, 482
Protein solubility characteristics
Growth comparison of a muscular and fat strain of swine: II., and *M. Longissimus* and serum electrolyte, 1124
Proteins
Utilization of processed sorghum grain, by steers, 540
Protozoa
Chemical additives in rumen fermentations: *In vitro* effects of drugs, inoculum source and substrate on rumen volatile fatty acids and, 994
Pyrantel salts, effects of
On *Ascaris suum* infection in growing pigs, 874

Q

Quarters, animal
Criteria needed to design, for comfort and productivity, 584

R

Range, subalpine
Cattle behavior on, in Southcentral Alaska, 339
Ration energy levels
Changes in the carcass composition of Holstein steers associated with, and growth, 611
Rations, beef
Formulating, with varying levels of heat increment, 692
Rations, finishing
Utilization of oak sawdust as a roughage substitute in beef cattle, 749
Rations for beef cattle
Programming models for use of the Lofgreen-Garrett net energy system in formulating rations for beef cattle, 685
Rats
Urea metabolism in sulfate-deprived and sulfate-supplemented, 1164
Rearing systems, confinement
Adaptation of poultry to, 590
Refeeding
Effect of fasting and, on some chemical properties of porcine muscle, 457
Rehydration solutions
Effects of shelf temperatures, storage periods and, on the acceptability and chemical composition of freeze-dried pre-cooked commercially cured ham, 624
Reproductive efficiency in ewes
Production in some pure breeds of sheep and their crosses: I., 1084
Reproductive performance of sheep
Effect of breed and mating season on, 1176
Reproductive steroids in the bovine
IV. Urinary estrogen excretion rates from 0 to 9 days after breeding in fertile and nonfertile cows, 1183
Respiration rate
And rectal temperature in the newborn lamb, 296
Rice straw
Feed value for sheep of cornstalks, and barley straw as compared with alfalfa, 343
Roughage, levels of
Digestibility of finishing rations containing various sources and, by steers, 544
Roughage substitute
Utilization of oak sawdust as a, in beef cattle finishing rations, 749
Rumen development in lambs
I. Microbial digestion of starch and cellulose, 740
II. Rumen metabolite changes, 989
Rumen fermentations
Chemical additives in, : *In vitro* effects of drugs, inoculum source and substrate on rumen volatile fatty acids and protozoa, 994

S

Sawdust, oak
Utilization of, as a roughage substitute in beef cattle finishing rations, 749
Sheep
A technique for cross-circulating blood of unanesthetized, 1174

Sheep
The sulfobromophthalein (BSP) liver function test for, 1190
ϵ-N-methyl lysine metabolism in, 1245
Selection, reciprocal
Effectiveness of, for performance of crosses between Montana No. 1 and Yorkshire swine. I. Preweaning traits, 191
Selection, reciprocal recurrent
Intrapopulation *versus*, in swine, 840
Selenium
Effect of vitamin E and, on tissue composition of young pigs, 883
Selenium supplementation
Of practical diets for growing-finishing swine, 905
Semen, differentiation of
From *bos bubalus* and *bos taurus indicus* by starch gel electrophoresis, 1212
Serum electrolyte
Growth comparison of a muscular and fat strain of swine: II. Protein solubility characteristics and *M. Longissimus* and, 1124
Serum metabolites
Of pregnant and hysterectomized gilts fed two levels of energy, 1153
Sex
Effects of housing environment, dietary protein level and, on performance of growing-finishing swine during winter seasons, 1138
Sex alteration, effects of
Breed, type of rearing and creep feeding on lamb growth, 859
Sex, influence of
And type of birth on performance of early weaned lambs, 974
Silages
Nitrogen studies with lambs fed alfalfa (*Medicago Sativa*) as hay, low-moisture and high-moisture, 1256
Site of sampling, influence of
And stage of fast on concentrations of all free amino acids in the plasma and liver of the young pig, 1143
Social behavior
In farm animals, 1274
Sodium chloride
Effect of oral potassium and, on plasma composition of cattle: A grass tetany related study, 354
Sodium sulfate
Metabolism of radioactive sulfur from elemental sulfur, and methionine by lambs, 778
Sorghum grain proteins, processed
Utilization of, by steers, 540
Sow farrowing interval
Factors affecting, 510
Soybean meal
Abomasal nitrogen in steers fed, urea or urea plus two levels of molasses, 531
Soybeans, cooked
Effect of, on performance, fatty acid composition and pork carcass characteristics, 891
Spermatozoa, porcine
Effects of benzimidazoles as inhibitors of the metabolism of washed, 287
Spermatozoa, washed boar
Influence of atmosphere and incubation temperature on the metabolism of, 103
Sponges, progestogen impregnated
Reproductive performance in goats treated with, and gonadotrophins, 301
Spring pasture
Effect of level of pasture supplementation on pasture, drylot and total performance of beef cattle. I., 744
Starch
Rumen development in lambs: I. Microbial digestion of, and cellulose, 740
Starch digestion, *in vitro*
Influence of sulfur on, by rumen microorganisms, 359
Steers, beef and dairy
Energetic efficiency of, 451
Steers, slaughter
Grading and two- and three-breed rotational crossing as systems for production of, 1062
Steroids, reproductive
In the bovine. II. Comparison of freemartins to fertile heifers, 318
In the bovine. III. Changes during the estrous cycle, 946
Storage periods
Effects of shelf temperatures, and rehydration solutions on the acceptability and chemical composition of freeze-dried precooked commercially cured ham, 624
Stress, environmental
Environmental physiology in the sub-tropics. I. Effect of continuous, on some hematological values of beef cattle, 968
Stress, heat
Energy balance during, in sheep, 784
Influence of, during early, mid and late pregnancy of gilts, 312
Stress in cattle, heat
Total body solids loss as a measure of a short-term, 306
Stress, thermal
Influence of postbreeding, on conception rate in beef cattle, 1216
Stressor agents
Evaluation of, in domestic animals, 578
Suckling, effect of
On postpartum anestrus in ewes lambing in different seasons of the year, 673
Sulfamethzaine
Value of chlortetracycline and, for conditioning feeder cattle after transit, 137
Sulfate-water
Drinking of, by cattle, 277
Sulfobromophthalein (BSP) liver function test
The, for sheep, 1190
Sulfur
Influence of, on *in vitro* starch digestion by rumen microorganisms, 359
Metabolism of radioactive, from elemental, sodium sulfate and methionine by lambs, 778
Supplementation, lysine, methionine and tryptophan
Of a corn-meat and bone meal diet for growing swine, 262
Swine, growing
Influence of source and level of dietary protein on plasma free amino acid concentrations in, 268
Lysine, methionine and tryptophan supplementation of a corn-meat and bone meal diet for, 262
Opaque-2 and floury-2 corn studies with, 256
Swine, Montana No. 1 and Yorkshire
Effectiveness of reciprocal selection for performance of crosses between, II. Postweaning traits, 211
Swine rearing systems
Biological implications of intensive, 560

T

Teaching, effectiveness of
Improving the, animal science, 161
Temperature, environmental
Effect of, on physiological characteristics of pigs with fast and slow glycolyzing muscle, 1103
Temperature, incubation
Influence of atmosphere and, on the metabolism of washed boar spermatozoa, 103
Temperature, rectal
Respiration rate and, in the newborn lamb, 296
Temperature, shelf
Effects of, storage periods and rehydration solutions on the acceptability and chemical composition of freeze-dried precooked commercially cured ham, 624
Testicular development
Effect of diethylstilbestrol implantation on, in the boar, 525
Testosterone-diethylstilbestrol implant
Effects of oral melengestrol acetate and a, breed and age on growth and carcass traits of beef heifers, 957
Tetany, grass
Effect of oral potassium and sodium chloride on plasma composition of cattle: a grass tetany related study, 354
Thermoregulatory responses
To cold environment by neonatal wild and domestic piglets, 926
Thyroid hormone levels
Comparison of, in Hereford and Braham cattle, 981
Thyroidectomy
Response of plasma Ca to, and calcitonin in growing pigs, 888
Traits, behavioral
Influence of energy intake, cow body size and calf sex on certain, of Angus-Holstein cows and their progeny, 727
Traits, carcass
Comparisons of certain, of several breeds and crosses of cattle, 446
Of purebred Durocs and Yorkshires and their crosses, 413
Traits, growth
Of reciprocally crossed Angus, Hereford and Charolais heifers, 399
Traits, productive
Relationship between, and carcass traits in lambs, 1057
Triticale
Nutritive value of, for ruminants, 534

U

Urea
Abomasal nitrogen in steers fed soybean meal, or urea plus two levels of molasses, 531
In growing rations for beef steer calves, 1251
Urea-cellulose preparations, heated
Feeding, to ruminants, 348
Urea liquid supplement
Effect of dehydrated alfalfa meal and of fish solubles on growth and nitrogen and energy balance of lambs and beef cattle fed a high, 764
Urea metabolism
In sulfate-deprived and sulfate-supplemented rats, 1164
Urea toxicity in sheep
Influence of certain nutritional and physiological factors on, 732
Urease, rumen
In vitro inhibition of, with acetohydroxamic acid, 794
Urinary components
Plasma and, in vitamin A-deficient ewes, 157
Urinary estrogen excretion rates
Reproductive steroids in the bovine. IV., from 0 to 9 days after breeding in fertile and nonfertile cows, 1183
Urine
Variations in acid labile conjugate of aldosterone in the, of ewes, 682
Urine, domestic sow
Metabolites of progesterone and estrogen in, I. Effect of pregnancy, 515
Metabolites of progesterone and estrogen in, II. Changes pre- and postpartum and effect of feeding 6-Methyl-17-acetoxy-progesterone, 930

V

Variance component analysis
Standard errors of heritability estimates calculated from, a two-way classification, 1069
Vitamin A
Status of steers as influenced by corn silage harvest date and supplemental vitamin A, 1233
Vitamin A-deficient ewes
Plasma and urinary components in, 157
Vitamin B_{12}, dietary
Utilization of, and cobalt by mature horses, 252
Vitamin E
Effect of, and selenium on tissue composition of young pigs, 883

W

Waste, feedlot
Handling and disposal of cattle, 803
Weight gains, postweaning
Variation in, of steers independent of appetite, 832
Weight, weaning
Evaluation of two types of age of dam correction factors for, in beef cattle, 1078
Weights, weaning
Production in some pure breeds of sheep and their crosses: II. Birth weights and, of lambs, 1090
Wheat, a new
Effects of methods of processing upon digestibility of, by sheep and cattle, 716
Winter seasons
Effects of housing environment, dietary protein level and sex on growing-finishing swine during, 1138
Wool production
Production in some pure breeds of sheep and their crosses: IV. Effect of crossbreeding on, 1099
Wool staples, grease
Comparison of methods of measuring crimp in, 43

X

X-irradiation
Chromosomal aberrations in cultured porcine fibroblasts after, of male progenitors, 1

Z

Zebu breeding
Effect of percentage, inbreeding and weight at different periods on calving percent of Brangus and Africander-Angus heifers, 500

AUTHOR INDEX FOR VOLUME 32, 1971

Page numbers of abstracts for the National and Sectional Meetings are identified by an Asterisk.
